

Web3D 2020 Conference

VIRTUAL EVENT

The 25th International ACM Conference on 3D Web Technology

9-13 November 2020

SPONSORSHIP PROSPECTUS

The 25th International ACM Conference on 3D Web Technology, organized in cooperation with the Web3D Consortium, will address an extensive range of research, development, and practice related to web-based interactive 3D applications. The goal of the conference is to share innovative and creative ideas that enable development of 3D applications for a wide range of 3D environments, including the web, mobile as well as virtual and augmented reality (VR & AR) setups. Works related to various application domains, including e-commerce, education, cultural heritage, entertainment and infotainment, social media, tourism, medicine, military, industry and construction (and many others) are welcome.

This year's theme, "3D for a Hyperconnected World", emphasizes the increasingly global scope and wide impact of high quality 3D content over high speed networks by application developers, domain experts, and end users. This includes the creation and representation of interactive 3D content, delivery standards, presentation techniques for development of efficient user-friendly 3D applications on the Web.

What is the Web3D Conference?

It is a conference on 3D Web Technology addressing an extensive range of research, development, and practice related to web-based 3D graphic. Attendees share and explore methods of using, enhancing and creating new 3D web and multimedia technologies.

The conference also focuses on recent trends in interactive 3D graphics, information integration and usability in the wide range of Web3D applications from mobile devices to high-end immersive environments.

Who Attends?

Leaders and experts from the 3D graphics industry including:

- Technologists
- 3D graphics experts
- Researchers
- Software developers
- Web developers
- User Interface experts
- Mobile app developers
- Designers
- Artists
- Hardware producers
- and others
